6. Diversion Control Net and related activities, including intelligence collection
7. Watch List and other commercial intelligence operations
8. Exchange of technical teams under Title III of Battle Act

B. Evaluation of Effectiveness of Above Enforcement Measures

III. Analysis of Problems and Deficiencies of Enforcement

A. Multilateral Enforcement Measures

1. Problem of maintaining enthusiasm for an effective implementation of the enforcement program
2. Problem of uniformity of controls
3. Problem of differential levels of control over trade with the Soviet bloc in Europe and Communist China
4. Problems arising from inadequate legal bases for controls (control systems, penalties for violations, etc.)

B. U.S. Bilateral and/or Unilateral Enforcement Measures

1. Effect on IC's of U.S. efforts to supplement their implementation of international controls
 - a. Diversion Cases
 - b. Administrative Action
2. Expenditure of U.S. goodwill as result of U.S. pressure for effective implementation of the enforcement program
3. Problems arising from the enforcement of U.S. controls over non-I/L commodities

IV. Possible Future Courses of Action

(Assumptions: Indefinite Continuation of Cold War)

1. Affect improvements in multilateral and unilateral enforcement measures
2. Improve intelligence collection and dissemination
3. Continue efforts to assist non-IC cooperation and participate in enforcement measures
4. Encourage multilateral exchange of information and cooperation in handling illegal trade transactions (including de-emphasis U.S. police function)
